Lock it or Lose It!

Did you know it takes less than 30 seconds to break into a car, grab what's in plain sight, check the usual hiding places for other items and get away?

Auto burglary often can be prevented with a few simple actions. The most important thing is to **lock your car door EVERY time.**

5 TIPS to prevent break-ins:

1. Don't leave valuables in your car in plain sight or slightly hidden; lock them in the trunk.
2. Always lock your car when you leave it; even in front of your house.
3. Once home, unload your valuables immediately. Do not store valuables in your car any longer than necessary.
4. If possible, leave no trace or sign that there might be valuables such as docking stations or connector cables. These can end up costing you hundreds of dollars to replace a broken window because the thief wanted to check your car for "hidden" valuables.
5. Try to park in busy, well-traveled areas and well lighted areas; be aware of your surroundings.

RGNA Welcome
